Fermilab Battery Recycling Programs

(Question?.... will there be anything special that I need to do with the batteries?)

Program 1 - Fermilab ES&H (*A proper Waste Form Must be filled out*)

Use generic MSDS numbers when filling out waste pick-up form (HWSF Form #10)

Lithium Ion	**-**	**15467**
Silver Oxide	**-**	**13619**
NiCad	**-**	**6950**
Lead Acid	**-**	**9644**
Lead Calcium	**-**	**13694**
Nickel Metal hydride	**-**	**12373**
Lithium	**-**	**8486**
Mercury	**-**	**11812**

Please help us make Fermilab environmentally friendly by doing your part in our recycling program.

Thank you for cooperating

ONLY! - Lead Acid Battery terminals must be taped

Program 2 - Business Services <u>Alkaline Battery</u> Recycling.

(Recycling cans are available in all PPD areas)

ONLY! - 9 Volt Battery terminals must be taped

<----- Look for this container
