

**MECHANICAL DEPARTMENT**

October 1, 2004

K. Krempetz, Head

J. Kilmer, Associate Head (NOvA/MIPP)

(E. Johnson, Admin. Support)

| <u>Design &amp; Drafting</u> | <u>Mechanical Engineering</u>  | <u>Project Management</u> | <u>CDF Operations</u>     | <u>SiDet Support</u>                |
|------------------------------|--------------------------------|---------------------------|---------------------------|-------------------------------------|
| C. Grozis, Ldr.              | D. Pushka, Ldr. (NuMI)         | (J. Kilmer, Ldr.)         | S. Moccia, Ldr. (CDF)     | K. Schultz, Ldr.                    |
| J. Rauch, Dpty. Ldr.         | J. Fast, Deputy Ldr.(BTeV)     | I. Churin (CMS)           |                           | K. Hardin                           |
| F. Browning                  | H. Cease (BTeV/SNAP)           | J. Howell (BTeV)          | D. Allen                  | K. Taheri                           |
| N. Cadena                    | E. Chi (BTeV)                  | D. Miller                 | L. Morris                 |                                     |
| J. Catalanello               | G. Derylo (Astro)              | A. Szymulanski            | W. Waldon                 | <u>Vacuum &amp; Instrumentation</u> |
| W. Cyko                      | I. Fang (Misc)                 |                           |                           | C. Kendziora, Ldr.                  |
| B. Ellison                   | M. Hryzyk (DZero Layer 0)      | <u>Co-Op's</u>            | W. Noe                    |                                     |
| D. Friend                    | L. Kula (CDMS/Site Support)    | J. Egan                   | D. Beckner                | J. Barilla                          |
| C. Grimm                     | E. LaValle (Misc)              |                           | W. Bowman                 | R. Davis                            |
| V. Majdanski                 | C. Lei (BTeV)                  |                           | C. Cahill                 | W. Miner                            |
| J. Mateski                   | D. Olis (BTeV)                 |                           | S. Gordon                 | M. Ruschman                         |
| J. Mulvey                    | Y. Orlov (DZero Layer 0, BTeV) |                           | J. Humbert                | J. Tweed                            |
| P. Poll                      | J. Silva (BTeV/Misc.)          |                           | J. Loskot                 |                                     |
| G. Smith                     | A. Stefanik (NuMI)             |                           | C. Olson                  | <u>Mechanical Installation</u>      |
| R. L. Smith                  | A. Toukhtarov (BTeV)           |                           | B. Vollmer                | J. Voirin, Ldr.                     |
| T. Sperry                    | E. Villegas (NuMI)             |                           | R. Rucinski, Ldr. (DZero) | J. Cornele                          |
| D. Tousignant                | R. Woods (MIPP)                |                           | M. Sarychev (DZero)       | J. Grado                            |
